

Product Information

Control Additive

ADDI-PROX C

is a special additive to improve the lubrication performance. The product is specially designed for straight oil metal machining processes.

Benefits:

- Additive to provide the required lubrication performance in mineral oil based machining oils
- Very good pressure absorption and lubrication performance due to EP- and AW additives
- Compatible with stand-alone machines or central systems
- Reduce tool wear
- Compatible to the products of the OEMETOL – product group

Data of the Product (Concentrate):

Determination	Method	Unit	Value
Density, 20°C	DIN 51 757	[kg/m ³]	944
Kin. viscosity, 40°C	DIN 53 018	[mm ² /s]	58
Refractive index, n _D ²⁰	DIN 51 423	---	1.491

Recommended concentration (depending on application and conditions):

5 – 10%

Shelf Life/ Storage Conditions:

6 months under ambient storage conditions

Industrial Health and Safety - Environmental Protection:

For more details about health and safety please read the information on the safety data sheet.

Disposal:

In compliance with the local waste regulations
