

Product Information

Control Additive

ADDI-PROX EP

is an additive based on highly effective sulphur compounds, that is used to improve the lubricating properties of water miscible and non water miscible cutting fluids.

Benefits:

- Free from chlorine
- Designed for heavy machining operations on steel
- Increases pressure absorption
- Optimises tool life and cutting performance

Data of the Product (Concentrate):

| Determination | Method | Unit | Value |
|--|------------|----------------------|-------|
| Density, 20°C | DIN 51 757 | [kg/m ³] | 1003 |
| Kin. viscosity, 40°C | DIN 53 018 | [mm ² /s] | 87 |
| Refractive index, n _D ²⁰ | DIN 51 423 | --- | 1.529 |

Recommended concentration (depending on application and conditions):

0.5 - 10%

Shelf Life/ Storage Conditions:

6 months under ambient storage conditions

Industrial Health and Safety - Environmental Protection:

For more details about health and safety please read the information on the safety data sheet.

Disposal:

In compliance with the local waste regulations
