

Product Information

Control Additive

ADDI-PROX G

is an additive to improve the lubricating properties of straight oils. The product is especially optimised for the requirements of grinding operations.

Benefits:

- Additive to provide the required lubricating performance in mineral oil based machining oils
- High pressure absorption and lubricating properties
- Special EP- and AW-additives reduce tool wear effectively
- Compatible to the products of the OEMETOL –product group

Data of the Product (Concentrate):

Determination	Method	Unit	Value
Density, 20°C	DIN 51 757	[kg/m ³]	926
Kin. viscosity, 40°C	DIN 53 018	[mm ² /s]	76
Refractive index, n _D ²⁰	DIN 51 423	---	1.480

Recommended concentration (depending on application and conditions):

5 – 10%

Shelf Life/ Storage Conditions:

6 months under ambient storage conditions

Industrial Health and Safety - Environmental Protection:

For more details about health and safety please read the information on the safety data sheet.

Disposal:

In compliance with the local waste regulations
