

Product Information

Control Additive

ADDI-PROX LM

is a specially designed additive for water-mixed process fluid in regards of the inhibition of staining on sensitive Aluminum alloys and Magnesium.

Benefits:

- Free from formaldehyde
- Applicable to all water-mixed process fluid
- Improves material compatibility and avoids staining on Aluminum and Magnesium
- Avoids impact on material surfaces through process fluid

Data of the Product (Concentrate):

Determination	Method	Unit	Value
Density, 68°F	ASTM D 1298	[kg/m ³]	1006
Kin. viscosity, 104°F	ASTM D 445	[mm ² /s]	51

Recommended concentration (depending on application and conditions):

0.2 – 0.5%

Shelf Life/ Storage Conditions:

12 months under ambient storage conditions.

Industrial Health and Safety - Environmental Protection:

For more details about health and safety please read the information on the safety data sheet.

Disposal:

In compliance with the local waste regulations
