

Product Information

Control Additive

ADDI-PROX SC/F

is a water-miscible system cleaner. Oil residues, debris, bacteria, fungi or any other dirt will be removed from the machine, if cleaned with ADDI-PROX SC/F before a new filling with water-miscible cutting fluids. This ensures optimal conditions for the cutting fluid.

Benefits:

- Compatible with all cutting fluid systems (stand-alone machines or central system)
- High washing and flushing action ensures cleaner machines
- Disinfection of the system
- Cleans out all kinds of residues
- Excellent material compatibility
- Easy-to-use
- Is to be removed together with the old cutting fluid

Data of the Product (Concentrate):

Determination	Method	Unit	Value
Density, 68°F	ASTM D 1298	[kg/m ³]	1054
Kin. viscosity, 104°F	ASTM D 445	[mm ² /s]	2

Recommended concentration (depends on the application):

1.0 – 2.0%

ADDI-PROX SC/F is to be added directly to the cutting fluid and must remain min. 8 hours in the system, if possible when it is running.

Use biocides safely. Before use, always read the characterization and the product information.

Shelf Life/ Storage Conditions:

6 months under ambient storage conditions

Industrial Health and Safety - Environmental Protection:

For more details about health and safety please read the information on the safety data sheet.

Disposal:

In compliance with the local waste regulations
