

CLEANER EC

CLEANER EC removes impurities from in and around the machine tool and prevents corrosion. It has no negative impact on the operating emulsion and is fully compatible. CLEANER EC cleans machine housings, panes, coated and uncoated parts from oily, greasy and other residues.

Your advantages at a glance:

- Easy handling
- Good corrosion protection due to special inhibitors
- Compatible to emulsions and solutions, therefore no negative influence on the coolant
- Low foaming characteristics
- Free of phosphate and bio-degradable

CLEANER EC was especially designed to simplify the daily cleaning of machine tools that run on coolant emulsions or oil free coolants.

Besides the superior cleaning effect the product is 100% compatible with any coolant from Oemeta. Thus any negative impact of the cleaner on the fluid (splitting, foaming, odor, etc.) is eliminated. Additionally, CLEANER EC is equipped with a highly efficient corrosion protection package that ensures temporary protection for cleaned and degreased parts. The product is particularly suitable for daily cleaning in-between maintenance intervals.

Cleaner 100 EC (40.318.00) is the concentrate version which is sold in 1 gallon and 5 gallon containers to be diluted 10:1 or 10% with water to create Cleaner EC

Product may be supplied in different spray bottles and orange color.
